FOUNDATION IN SCIENCE

JPT/BPP (N/010/3/0530) 01/25 MQA/FA 12391

WHERE KNOWLEDGE IS APPLIED and DREAMS REALIZED

PROGRAMME CONTENTS

SEMESTER 1

- CHEMISTRY I
- PHYSICS I
- BIOLOGY 1
- MATHEMATICS I
- INTRODUCTION TO INFORMATION TECHNOLOGY I
- ENGLISH I
- CO-CURRICULUM I

SEMESTER 2

- CHEMISTRY 2
- PHYSICS 2 / BIOLOGY 2
- MATHEMATICS 2
- INTRODUCTION TO INFORMATION TECHNOLOGY 2
- ENGLISH 2
- CRITICAL THINKING SKILLS
- ISLAMIC STUDIES/MORAL STUDIES
- CO-CURRICULUM 2

PROGRAMME AIMS

- To produce foundation graduates who will undergo their Bachelor's Degree in the field of science and technology.
- To develop students who are knowledgeable, competent and competitive, with positive values, as aspired by the National Education Philosophy, who will later become professionals and leaders of the country.
- To continuously enhance knowledge and skills among the students to fill the void in certain fields in the country.

UniKL Malaysian Institute of Chemical & Bioengineering Technology (UniKL MICET)

SEIZING A FUTURE IN CHEMICAL AND BIOENGINEERING TECHNOLOGY

Universiti Kuala Lumpur Branch Campus Malaysian Institute of Chemical and Bioengineering Technology (UniKL MICET), located in Alor Gajah, Melaka, is a pioneer in providing hands-on chemical based technology education in Malaysia. The courses at UniKL MICET place high emphasis on the interaction between scientific and technological training and industrial experience with the contents of its courses being regularly reviewed in accordance with the changing needs of the industry.

FACILITIES

Our campus is equipped with excellent infrastructure and latest technologies. The infrastructure is supported by state-of-the-art equipment, classrooms, laboratories, pilot plant, library and students' accommodation to ensure experience in campus lifestyle to the fullest for our students.

ACADEMIC STAFE

You will learn from staff who are highly involved in research with industry and the community. More than 40 percent of our academic staff holds doctorate qualifications.

ACCOMMODATION

The quality of the university environment, especially the students' accommodation is essential in determining their academic success. The Accommodation Office provides support for students' needs and any issues concerning accommodation. The students' residential is conveniently located inside the campus area.

FOUNDATION IN SCIENCE

The Foundation in Science programme is designed for local and international students who aim to pursue undergraduate programmes in Universiti Kuala Lumpur. The foundation programme is a 1- year programme that fulfills the basic theory that the students need to enroll into their future studies.

ENTRY REQUIREMENTS

Pass in SPM / O-Level with at least 5 (five) credits, or other equivalent qualifications recognized by Malaysian Government.

*Priority will be given to applicants who have PASSED Mathematics and ONE (1) science subject.

FEES

TUITION FEES (1 year)

Local Students	International Students
RM5,000	RM9,750

PROGRESSION

Students who successfully complete the foundation programme will automatically progress into the first year of any bachelor programme at UniKL.
